

As an international cooperation enterprise for sustainable development with worldwide operations, the government owned Deutsche Gesellschaft fuer Internationale Zusammenarbeit (GIZ) GmbH operates on behalf of German Ministry of Environment. GIZ has a record of more than 60 years working in Thailand.

For the Programme **TGC-EMC: Thai-German Cooperation on Energy, Mobility, and Climate** we are currently looking for a Junior Advisor for the Transport Sector.

### **Junior Advisor (Transport)**

The **Thai-German Cooperation on Energy, Mobility and Climate (TGC-EMC)** is a bilateral program under the International Climate Initiative (IKI) supported by the German Federal Ministry for Economic Affairs and Climate Action (BMWK). The programme aims to support the acceleration of Thailand's energy transition, ensuring compatibility between economic growth and high climate ambitions. A key component of this programme looks into the "Decarbonization of the Transport Sector" and will focus on transport sector electrification, EV batterie technology development and integration with renewable energy-based electricity production, charging infrastructure roll-out and EV grid integration.

Focusing on the two most important sectors in terms of emissions, the project will moreover support the operationalization of the power and transport transition through technology and knowledge transfer as well as policy, regulatory and business model development support. A clear focus will be put on sector coupling to encourage the tackling of issues shared across sectors which slow the energy transition. This cross-sectoral support to implementation will translate into City Labs where the technical, regulatory and business support will be operationalized along with local stakeholders in an urban set up, integrating a scaling-up plan. Finally, the project will provide significant support in the field of climate finance. The Thai Climate Finance Initiative (ThaiCI) will provide seed funding to a number of local projects along with capacity development to both the funding manager and potential recipients.

### **Responsibilities:**

The **Junior Advisor (Transport)** will be responsible for the following tasks:

- Support and assist with the overall project implementation
- Support the communication with project partners incl. political partners, universities, and the private sector (main partners include OTP, ONEP, DEDE, EGAT, EPPO, EVAT, KMUTT, Agora Verkehrswende and Fraunhofer)
- Contribute to preparation and implementation of consultation and advisory processes
- Support the coordination of specific project activities, including progress reporting to donors
- Support the coordination and management of consulting contracts and cooperation
- Prepare official documents and inquiries, e.g., agenda, meeting minutes, invitations
- Support the preparation of stakeholder meetings, both in terms of organization and content preparation
- Support the development of Term of References (ToR) and the management of contracts with external experts, ensure timely service delivery and review deliverables provided by external experts
- Support the preparation and facilitation of workshops, seminars and trainings
- Support the monitoring and reporting of project activities and contribute to knowledge management
- Conduct research and analyses of official documents, e.g., laws, regulations or technical papers
- Contribute to the preparation of communication materials and support with the dissemination

- Support coordination with other GIZ projects in Thailand and the region as well as initiatives of other implementing agencies or donors working in a similar field to foster synergies and collaboration
- Perform other duties and tasks at the request of management within the project's scope, e.g., technical engagement with stakeholders to some extent.

We are looking for a candidate who preferably possesses (the equivalent of):

- Master's degree related to at least one of the following fields: energy, transport, climate change, environment, or economics
- Professional working experience in a similar position, ideally working on topics related to transport, energy, climate change is an advantage
- Excellent communication skills and confidence to communicate with political partners and the private sector
- Ability to quickly establish dependable working relationships within the own organization and with external counterparts
- Independent working style with a strong team orientation
- Experience in organizing and facilitating workshops, seminars or trainings
- Experience in working with Thai ministries, in public administration or in an international organization as well as knowledge of political and administrative processes is a strong advantage
- Willingness to quickly develop an understanding of policies and technical matters relevant to the project; previous knowledge is an advantage
- Very good presentation and communication skills
- Proactive and positive attitude and ability to self-motivate
- Interest and ability to work in a cross-cultural context and team
- Readiness to travel within Thailand and in the region, subject to project requirements
- Excellent command of Thai and English in writing and speaking; knowledge of German is an advantage.

This will be a fixed-term contract, starting as soon as possible and running until end of September 2024 with the possibility of an extension.

Please submit your application and CV to [chattayada.pattaragulwanit@giz.de](mailto:chattayada.pattaragulwanit@giz.de). The deadline for applications is 28 September 2022. Only shortlisted candidates will be contacted. GIZ Thailand is an equal opportunity employer and actively encourages gender diversity within the company and operations.
